

THE CHARLEROI MAIL

VOLUME XXI—NO. 228

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, THURSDAY, MARCH 3, 1921

TWO CENTS

M'KEAN HOMESTEAD TAKEN OVER BY MASONIC LODGE

Ultimate Object is to Erect
Permanent Home at 5th
and Lincoln Ave.

TO ORGANIZE MASONIC CLUB

A deal was consummated a few days ago, whereby William R. McKean and others, convey to Thomas R. Eagye and the other Trustees of Charleroi Lodge No. 615, F. & A. M., the old McKean homestead, located on Fifth street and Lincoln avenue. The deal has been pending for some time, the deed which was filed for record a few days ago being dated August 6, 1920.

The property taken over measures 138.12 feet on Fifth street and 212.45 on Lincoln avenue, and the location is one of the most desirable in town. It is far enough removed to be free from the noise incidental to the movement of trams and street cars, and at the same time so conveniently situated as to be reached in a very few minutes either from the Pennsylvania railway station or from the street car stops.

It is the present purpose of the new owners, so it is said, to establish a Masonic Club in the building now on the property, although it may be some time before the plans are fully prepared and approved. Tentative suggestions have been made along the line of such an organization, and it is believed that it will meet with instant success.

The ultimate object of the purchasers, so it is reported, is the erection of a suitable building for housing the Masonic organizations of Charleroi. The site will give ample room, and it is intimated that when conditions are more propitious than at present a three-story structure, measuring possibly 100x100 feet, will be erected. Such a building would provide ample space for all the activities of the two Masonic bodies located here, and give them quarters equalled by no other town outside the big cities.

NORTH BELLE VERNON WANTS A POSTOFFICE

A petition is being circulated and generally signed by North Belle Vernon residents, that will be forwarded to the post office department at Washington, praying that a post-office may be located in that borough. The petition sets forth the population of the borough and the environs that would be accommodated by the addition of a postoffice, together with the assessed valuation and all the necessary information for the department. The petition will be presented soon after Mr. Harding's inauguration.

Playing a Waiting Game In The Fuel Industry

A "waiting out" process apparently is being played in the upper valley and Fayette county coal and coke districts. Attitude of the Steel Corporation of "no revision" has checked gossip concerning wage revisions and lower production costs for the time being, the apparent intention of independent interests to "wait awhile" before taking any action along these lines evidently being maintained. It is true that in some plants some revisions have been made to continue operations, but these are not sufficiently general to establish any new standard of costs. In operating industries one of the most noted features is the increased personal efficiency on part of workers. There is a decided surplus of labor at present.

Best official information available indicates that the H. C. Frick Coke company output is down to 60 per cent this week and the coal production is around 65 per cent. There is little, if any, curtailment in the by-product coal output of the Frick

Coke company. The company is making an effort to distribute work as widely as possible to its employees, workers at plants now closed being given an opportunity whenever possible for part time at nearby operations.

Close observers of the industry predict some activity during the present month through actual closing of contracts. These observers, too, believe that a definite standard of production costs will be determined upon by April 1, independently of the Steel Corporation, if that company does not act by the end of the month. Operators and brokers see in the situation as March is ushered in every reason for optimism in the general situation. The tone of inquiries for contracts, general industrial conditions throughout the country and the resumption of iron and steel plants and automobile factories is taken as most healthy indication which soon will be reflected in the region in terms of coal and coke tonnage.

URGE CRAIG FOR WAR DEPARTMENT

At the banquet of the Monessen Board of Trade, held in the High school gymnasium, Wednesday evening, a telegram urging President-elect Warren G. Harding to appoint Hon. Thomas S. Craig of Waynesburg, to be assistant secretary of war, was unanimously approved and forwarded to Washington. Also, another telegram extending the best wishes of the trade body to the incoming administration.

One year ago at the annual banquet of the Monessen Board of Trade, Hon. Warren G. Harding, then a Senator from Ohio, and Hon. Thomas S. Craig were the speakers of the evening. At that time Mr. Harding was introduced as the "next President of the United States" by Toastmaster Ely, a prediction that has been fulfilled.

J. ADD HALL, CLERK IN CONTROLLER'S OFFICE

J. Add Hall, employed in the commissioners' office at Washington, has been named a clerk in the office of the county controller, succeeding Robert L. Montgomery, resigned, who had been acting clerk since the illness and death of Arthur Saunders. Mr. Hall goes into the office thoroughly familiar with the work, due to his experience in county business affairs when in the office of the commissioners.

Dr. Frank L. Wertz, of Lewistown, Pa., a classmate of Dr. B. D. Hetrick, is visiting with friends in Charleroi.

TO IMPROVE ROAD BETWEEN MONESSEN AND BELLE VERNON

ASK HOTEL CONTROL BY SERVICE BOARDS

Representative Harry Fieldman of Pittsburgh, would give the Public Service Commission complete supervision over the hotels of the state. That body would be empowered to pass upon rates, restaurant charges, the failure of the telephone operator or the bell boy to call a guest in the morning, the cost of the food served at breakfast and other problems arising each day.

REJECT BIDS FOR MONONGAHELA PIKE

Because the proposals on 19 of the 26 road projects of the state highway department were too high and not "representative of the downward trend of prices," Highway Commissioner Sadler on Wednesday ordered rejection of the bids for these projects.

"For the past three or four months labor costs and material prices have been decreasing, but this decrease is not adequately reflected in the bids submitted to this department, February 18," Sadler declared. The projects will be re-advertised within a short time with a view of obtaining more reasonable proposals, he said.

"There is no reason why the state should play more for its work than private individuals," the commissioner pointed out in rejecting bids on the 19 projects to be re-advertised.

The road construction jobs for which bids were rejected includes a portion of Route 181, in Somerset and Nottingham townships, this county, on the Monongahela pike.

Mrs. John S. Shanton
A telegram was received in Charleroi announcing the death of Mrs. Tena Frye Shanton, widow of the late John Shanton, which occurred at her home in Johnstown this morning. The remains will be brought to Charleroi, and taken to the home of Mrs. S. R. Blythe, from where funeral services will be held Friday afternoon at 2 o'clock, interment to follow in Frye's cemetery, Fallowfield township.

Mrs. Catherine Hurst
Mrs. Catherine Hurst died at her home, 130 Fallowfield avenue, this morning at 10:55 o'clock, aged 70 years. Funeral from the home on Saturday afternoon at 2:30 o'clock, interment in Monongahela cemetery.

WINTER IS DUE FOR A COME-BACK

According to the weather man, winter is due for a comeback, a temperature of 20 degrees above being predicted.

Born—To Mr. and Mrs. Fred W. Reeves, 801 Second street, March 3—a daughter.

A FIDDLING TARIFF.

A headline in the Washington Star reads: "Fiddling Figures in Program of House Tariff Constructors," referring to testimony taken by the Ways and Means Committee on the musical instrument schedule. Unconsciously the Star suggested something of an idea for the tariff framers, namely, "fiddling figures." Why not a sliding scale of ad valorem duties which will fiddle up or down as the currency of Europe fluctuates in relation to the American dollar? Let the specific duty system be the bridge which balances the cost of production differential—the fiddling ad valorem to disappear as foreign currency reaches par.

The present tariff law averages about 6 per cent ad valorem on all imports. This is considerably lower than the framers themselves intended. As a matter of fact it is a great deal lower than appears on the face of the figures. The currency of Europe today bears no resemblance to the European currency of the days of 1913 when the present tariff law was enacted. But our ad valorem rates of duty under the present law are based on foreign selling costs, hence it would be a closer estimate to say that our tariff is considerably less than two per cent average ad valorem so far as its effectiveness is concerned. The problem of the Republicans is to enact a measure which will contain some compensating features to take care of foreign currency fluctuation, and figures which fiddle harmoniously will charm American industry.

ARE WE COLLECTORS?

The allies will take indemnity whatever they can get from Germany. Belgium owes the United States two or three hundred million dollars, and President Wilson suggests that we accept from Belgium bonds that Belgium will get from Germany.

If we settle Belgium's debt by taking her German bonds, we undertake to collect on them.

Is it a good idea to make ourselves the thoroughly hated collectors of the Allies, and do their work, collecting from a bankrupt nation. Why should they not do their own collecting?

That question Mr. Harding will answer when he becomes President.

LEMON AID.

A tariff war is on between the importers of Italian and the growers of California lemons, the former asking for the retention of present Democratic rates, if they cannot have absolute free trade, and the latter asking a minimum tariff of 2 cents a pound. This recalls the understanding which the Democratic party had with the Italian voters in 1912, namely, if certain Italian leaders would deliver the Italian vote, free trade in lemons would be given. The vote was delivered, and the duties were materially reduced. The Italians got the real lemons, the country got the political lemons.

Considering the rate at which Russians are starving, the Lenin government's expectation of a forty year tenure seems a bit over sanguine.

THE DAILY ROUND

The daily round of most people is work in order to get food to eat. Then they eat to get strength to work to get food to eat. Then they sleep to get strength to work to get food to eat to get strength to work until they sleep again to get more rest, after which they should be more able to work until they get tired and have to sleep to get rest to work to get food to eat to get strength to work to get food to eat. So there you are.

ORDINANCE NO. 372

An ordinance providing for a coal haulage right of way to John W. Latchem over and across McGowan alley and through and in under Allen alley, Twelfth street, Shady avenue and Oakland avenue, in the borough of Charleroi, Washington county, Pennsylvania, and authorizing the execution of an agreement there of.

Be it ordained and enacted by the Lurgess and Council of the Borough of Charleroi, Washington County, Pennsylvania, and it is hereby ordained and enacted by authority of the same:

Section I.

That the contract and bond of John W. Latchem, this day presented to Council, and providing for the right of way hereinafter authorized, is accepted and approved.

Section II.

That a right of way for the installation, erection, maintenance and operation of a coal haulage road is hereby granted to said John W. Latchem not exceeding ten feet in width over and across McGowan Alley and through and in under Allen Alley, Twelfth Street, Shady Avenue and Oakland Avenue as designated upon the plan attached to said agreement and bond and in strict conformity to and with the several terms, conditions and payments therein provided.

Section III.

The proper officers of the Borough are hereby authorized and directed to execute said contract in duplicate.

Ordained and enacted into an ordinance this first day of March A. D. 1921.

H. J. Repman,
President of Council.

Attest:

Ira L. Nickeson,

Clerk.

Examined and approved by me this 2nd day of March A. D., 1921.

S. L. Woodward,
Chief Burgess.

Attest:

Ira L. Nickeson,

Clerk.

LAST PICTURE OF WILSON AS PRESIDENT

President Wilson, leaning on a heavy rubber-capped cane, walked into the executive offices at the White House for the last meeting of his cabinet when this picture was taken, Feb. 15. The president had gained in weight, but showed plainly the suffering through which he had passed.

MEN'S CLASSES ATTEND SERVICES

At the services in the M. E. church last evening the Men's Classes occupied the middle tier of pews. It was a great inspiration on so bad an evening for the pastor to look into the faces of so many men when he began to preach. The text of the evening was from Psalm 119:9: "Wherewithal shall a young man cleanse his way? By taking heed thereto according to His word." The young man's way of life in relation to what it contains in way of temptation, opportunity and duty, whether it leads and who should control it, was discussed. This evening the women's organizations will attend the services.

Tomorrow evening Mrs. Potter, who has charge of the mission work at Newkirk, will attend and conduct a consecration service.

REHEARSALS ARE WELL UNDER WAY

"Fi-Fi of the Toy Shop," a musical extravaganza, with a cast of about 250 pupils of the local schools assisted by some of the leading local talent, will be the attraction at the high school auditorium, Wednesday and Thursday evenings, March 16 and 17, 1921. The John B. Rogers Producing Company of Foscobia, Ohio, which is staging the production, has had considerable success in the presentation of this work, it having been given over 1,500 times throughout the country. Miss Mabel E. Bush, the company's representative, is already hard at work, drilling the various groups. Miss Bush came to Charleroi direct from Shamokin, Pa., where she had unusual success with "Fi-Fi." Much enthusiasm is being shown in the preparation of the work by the local participants, and everything indicates a performance that will be well worth seeing. The proceeds will be for the improvement and extension of the high school library, a very worthy project.

BRIDAL COUPLE WILL RESIDE IN CHARLEROI

Wednesday morning at 9 o'clock at the parsonage of the First Baptist church, Monongahela, occurred the marriage of Miss Ruth E. Crookham daughter of Mr. and Mrs. E. Crookham of Monongahela, and Charles Wirtz, son of Mr. and Mrs. E. Wirtz, of Osceola Mills, Pa., with the Rev. A. M. Gregg, pastor, officiating. The bride is a well known and popular young lady of Monongahela, while Mr. Wirtz is connected with the Donahoe store of Charleroi. After a short trip east the young couple will go to housekeeping in Charleroi.

We wish to thank our many friends for their kindness during the sickness and death of our mother Mrs. Martha Lewis.

Lewis Family.

USE THE CLASSIFIED COLUMN.

Tracing Origin of Billiards.

Billiards is believed by some to have been brought from the East by the Crusaders, while others claim an English origin for it and find it allied to the game of bowls. Still others assert that the French developed it from an ancient German game. It seems pretty certain that the first person to give form and rule to the game was an artist named Henrique Devigne, who lived in the reign of Charles IX. One writer sees in billiards the ancient game of paillemaille played on a table instead of on the ground, and this is a reasonable assumption.

What is a Weed?

According to Webster's International dictionary there are two definitions of a weed: 1. Wild growth in the nature of rank grass, undergrowth, or the like. 2. Any plant growing in cultivated ground to the injury of the crop or desired vegetation, or to the disfigurement of the place; an unsightly, useless, or injurious plant. The following note is added: A weed is a plant that is not wanted. There are, therefore, no species of weeds, for a plant that is a weed in one place may not be in another.

To Make Friend of Toad.

The toad is not looked upon with any great amount of favor by the average person, and is generally thought of as being "ugly," while the old boyhood superstition that holds the lowly hopper as responsible for warts still lingers in many adult minds. In reality the toad is a peaceful, friendly little creature that can be trained in a very few minutes to be "gals" and after a week or so can be made as affectionate as a dog. They are cleaner than any furred animal and are exceedingly interesting as pets.

Mining Potash.

Potash in Germany occurs in the form of a rock salt and runs in seams of thirty feet or more in thickness. As mined it has about the same consistency as the common rock salt of commerce, and its grinding is easy. The depths at which the true potash deposits are situated make it necessary to sink shafts leading to levels of as much as 5,000 feet below the surface.

The proletariat in Russia is used to denote the lowest and poorest classes. It is derived, through the French, from the Latin proletariat, the name given in the census of Servius Tullius to the lowest of the centuries, who were so called to indicate that they were valuable to the state only as rearers of offspring. The word has come much into use in the literature of socialism.

Kerosene and Coal.

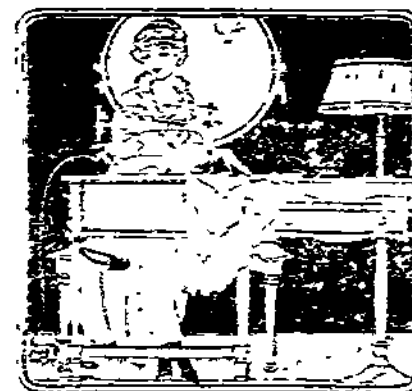

Kerosene contains more heating energy than coal when considered on a weight basis. A pound of kerosene contains about 19,000 heat units, whereas a pound of high-grade coal contains about 15,000. The cost of the various fuels for heating purposes depends largely upon the relative supply.

A Flying Furnace.

The average meteor when first seen is about 80 miles above the surface of the earth, and disappears from view at 30 miles. Thus, it travels 50 miles before the atmospheric friction burns it up. This friction, it is reckoned, raises it to a temperature of something like 3,000,000 degrees.

Substitute for Glass.

A new substitute for glass or for lacquer has been invented in Germany. It can be cut with shears or with a knife and, when heated to more than 100 degrees Centigrade, it forms a kneadable mass which resumes its previous hard state on cooling. It is known as "cellon."

PREPARING FOR LORD MAYOR'S VISIT

The appearance of Donal O'Callaghan, Lord Mayor of Cork, at Charleroi, on Friday evening, March 18, is expected to be the occasion of a large demonstration, in which residents of towns all along this section of the valley will take part. The following committee has been selected to take charge of the arrangements: Rev. Father McCarthy, Roscoe, chairman; William Feeney, Chas. P. Byrne, George Newton, James Walsh, John Means, John O'Leary, and Michael T. Crawley; Mesdames Massieux, Wryer, Herron and Reardon, and the Misses Shields, Reardon and Guiler constitutes the women's committee.

Sit Down A Minute and Think

Size Up Your Condition. Look at The Facts Squarely

IT PAYS TO HAVE GOOD HEALTH

Most Illnesses Are Prevented by a Good Supply of Rich, Red Blood. Take Pepto-Mangan, the Red Blood Builder.

Either you are in good health or you are not. There's no half way. You may think nothing of being a little run down. It may not worry you if you look pale. You may think you'll feel right tomorrow or next day. But will you?

Certain it is when you do not feel just right, you are not right. There is probably something the matter with your blood. And while you can get around and do your work you are leaving yourself open to any of the diseases that are always waiting to take possession of run down people.

When you are pale and easily tired when you cannot enjoy your meals, when you lose enthusiasm, your blood needs attention.

Take Pepto-Mangan for awhile. It is a great tonic. It will build up your resistance to disease, and you will soon feel stronger. The little red corpuscles are fighters. They battle with disease germs and win out when there are enough of them. Keep your system well supplied. Then you will keep well and you will enjoy life.

But be certain you get the genuine Pepto-Mangan. Ask for it by the full name—"Gude's Pepto-Mangan." Some people take it in tablet form. It is so convenient. The liquid and the tablets have the same medicinal value. Look for the name "Gude's" on the package. Advt

RECOGNIZED AN OLD FRIEND

Countryman Visiting in City Had No Fear of Being Harmed by "Thrashing Machine."

An elderly countryman stood on a Broadway curb with more fear in his heart than he had ever experienced in his home county and more than his son had experienced in Argonne forest. To him the crossing of that crowded street was truly the "great adventure."

In the middle of it were two lines of trucks, up and down which hurried great "tanks" of street cars—juggernauts, seemingly intended for the sole purpose of crushing his aged limbs should he venture into their path.

On either side of them were endless lines of chugging trucks, with an occasional horse-drawn vehicle, and dodging in and about were touring cars and autos of all kinds.

Now and then the sharp whistle of a traffic policeman would spell safety to the acrobatic and initiated, who dashed across the street, skillfully dodging traffic, which turned the corner in a way no one but an old New Yorker can understand, and even he cannot explain.

Finally they rumbled down the street a steam roller used in asphalt pavement work, belching clouds of smoke but attracting no attention. The old countryman was electrified. It so lately he deserted his shore of safety and plunged across the street in its very path.

"Huh," he grunted as he reached the other side. "That's one thing I ain't afraid of. They used to scare horses when I was a kid; used to make a man out of the thrashing crew walk ahead of them. I know they won't hurt you, but I don't know what these other things will do. Never expected to see a thrashing engine here, but you never can tell. New York's a great city, all right."—New York Evening Sun.

DEALT LENIENTLY WITH HIM

Consumer's Action, of Course, Was Reasonable, But Caliph Proved a Kindly Man.

"What is the charge against this man?" asked the caliph, with a sympathetic gleam in his benevolent eye. "Your honor," said the attendant, "it appears that he attempted to start a private drive of his own for his family."

"A private drive! Why, this is treasonable. Who is he?"

"He is just a consumer, your honor; just a private citizen, a man who apparently belongs to the middle class, at the head of a large family. Upon being questioned, he told the inspector, with a loud and unseemly laugh, that for many moons he had been asked to contribute to everything—all kinds of reliefs, governments, etc., and with all this burden he was forced to pay 25 cents a pound for sugar, \$60 a month for a cook, \$100 for a suit, and other things in proportion. And so, your honor, with a mad laugh, he started a private drive of his own, announcing that if anybody in America needed relief, it was he."

The caliph shook his head sadly, for he was not an unkind man.

"Poor wretch," he said. "Do not confine him too rigorously. Feed him on nourishing things, keep his feet warm, and try to nurse his reason back. It is evident that the situation in which he has found his beloved country has unhinged his mind."—Rebboth Sunday Herald.

Aged Aviation Devotee.

France's younger generation has been encouraged to use air locomotion by an old lady of eighty-three, says a Paris correspondent of the London Times. She is Mme. Hemery, a charwoman, who lives in the country, where airplanes pass every day. It was in 1913 when she first left the ground, when she tasted the delights of ballooning, and, seeing, as she did, the new airbird daily above her, she could not resist trying the new sensation. Thus one day she had saved sufficient money from her meager earnings and took a trip in the air. She did this without the knowledge of her many grandchildren, who were completely shocked when the news reached them. She is in no way perturbed and is determined as soon as funds allow to try looping the loop.

And Dew Drops.

Struck by the notice "Iron sinks" in a hardware shop window, a wag went inside and said that he was perfectly aware of the fact that "iron sank."

Alive to the occasion, the smart shopkeeper retorted:

"Yes, and time flies, but one vaults, sulphur springs, jazz rolls, grass slopes, music stands, Niagara falls, moonlight walks and holiday trips, scandal spreads, standard weights, India rubber tires, the organ stops, trade returns, and—"

But the visitor had bolted. After collecting his thoughts he returned, and showing his head at the doorway, shouted:

"Yes, I know, and marble busts!"—Science and Invention Magazine.

Trust Controls Chinese Dye.

That the manufacture of the red dye used by the Chinese to color firecrackers for export to America is controlled by a native "trust" with headquarters in Hongkong is the intelligence brought to this country by a Filipino now studying at the New York State College of Forestry, says Popular Mechanics Magazine. The dye is used also in making the floral dyes which the Chinese certify their

BABY BORN ON PEACE DAY

After Mother Had Been Restored to Health by Lydia E. Pinkham's Vegetable Compound

Salisbury, Mass.—"For seven years I had a female trouble and such bearing-down pains I could hardly do my housework. The doctor said, 'If you can have another baby it might be the best thing for you but I am afraid you cannot.' I began taking Lydia E. Pinkham's Vegetable Compound and my baby was born on 'Peace Day'. If women would only take your Vegetable Compound they would have better health. I always recommend your Vegetable Compound to the neighbors."—Mrs. TRACY PATTEN, 2 Lincoln Ave., Salisbury, Massachusetts.

The experience of maternity should not be approached without careful physical preparation, as it is impossible for a weak sickly wife to bring healthy children into the world.

Therefore if a woman is suffering from a displacement, backache, inflammation, ulceration, bearing-down pains, headaches, nervousness or "the blues," she should profit by Mrs. Patten's experience, take Lydia E. Pinkham's Vegetable Compound and be restored to health.

CRUDOLEUM THE GUARANTEED REMEDY FOR HAIR AND SCALP TROUBLES

Southern cases of itching irritations of scalp are easily overcome by Crudoleum. It is a harmless, high grade light amber petroleum, which has been tried and proven to be especially adapted for removing dandruff and other causes of falling, fading hair. Able authorities have proved this fact by many convincing trials. As time rolls on, the public, after using many different remedies for hair care and ridding the scalp of disease and dandruff, are returning to petroleum, but to the higher, clearer grade, and not to the thick, dark, muddy looking petroleum which are apt to contain suspended particles of unsanitary substances, lime, free carbon or free sulphur. This accounts for the possibility that a few who have used a common grade are telling their friends about it.

DON'T NEGLECT A COLD CHASE IT OVERNIGHT

Turpo, Made of Turpentine, Menthol and Camphor, Skillfully Combined in Salve or Ointment Form, Gives Immediate Relief for All Cold Troubles and Congestions

During the past severe winter, when colds and the serious illnesses resulting from the neglect of colds were so prevalent, Turpo, the Turpentine Ointment, protected thousands of homes right in your neighborhood. It is a clear ointment or salve, in which is skillfully combined distilled Turpentine, Camphor and Menthol—remedies known to every doctor and druggist for their value in the treatment of colds and other ills.

Applied externally, Turpo carries the curative properties of these well-known remedies right through the skin to the root of the trouble, affording immediate relief in all colds and congestions. By checking a cold in its early stages Turpo prevents its developing into something more serious, and acts
